

The logo for VODAPRO, featuring the word 'VODAPRO' in a stylized font. The 'O' is replaced by a blue circle containing a white water droplet icon. The letters are in a light blue color.

INNOVATIVE FLUID HANDLING + CONTROLS

The background of the advertisement is a photograph of a clear, turquoise lake surrounded by a dense forest of tall evergreen trees. In the distance, a steep, rocky mountain rises above the treeline. The image is framed by large, dark teal geometric shapes in the corners and bottom, creating a modern, abstract design.

## Ready For More?

**VODAPRO** has been increasing the product range and service support at a steady pace. We are partnering with at least 10 different brands since 2013 and will continue to diversify the product range to become a truly one stop centre for dosing and monitoring equipment providers.

We are recognized as a responsible business partner. Our ability to have four key differences really set us far in terms of experience, competitive price, swift support and personal stockist.

We understand your instruments and have the up-to-date information and skills being further polished with our partners and manufacturers. We are also capable of assisting you in tasks like calibration and troubleshooting.

**VODAPRO** would love to meet you to explain more or kindly visit our website at [www.vodaproasia.com](http://www.vodaproasia.com) to learn more about us.

### Our Vision

To be the company of choice of our clients in global market for water monitoring, driven by innovative, reliable and easy-to-use solutions.

### Our Mission

To provide one-stop, responsive and trusted water monitoring instruments to our clients with the highest-quality, most dependable before and after sales services.

# Controller / A n a l y s e r

## Key Features :

Two 4-20mA  
current outputs

Two/Four relay outputs  
with delay function

One multifunctional relay  
(Clean/Period/Error alarm)

Automatic/Manual  
temperature compensation

RS485 MODBUS  
communication

Data logger & software update  
(6000 Series only)

Power supply:  
90-260VAC (Optional  
for 24VDC)

2 years warranty

**Leadtec** is a leading manufacturer of on-site water monitoring instruments for groundwater, surface water, pure water and wastewater applications.

With field proven technologies, **Leadtec** is here to deliver accurate and reliable measurements to you. **Leadtec** offers single channel and multichannel controllers for your process requirement.

**Leadtec** also provides OEM/ODM products to our customers according to their requirements.

# Sensors & Accessories

**Leadtec** offers an extensive portfolio of analytic sensors: each sensor is specifically designed for its area of application; the respective approvals, certificates and process connections range.

Based on different physical, electrochemical and optical effects, liquid analysis sensors measure values as below:

1

pH/ORP

2

Conductivity/Salinity  
/Resistivity/TDS

3

Dissolved Oxygen

4

Turbidity

5

Suspended Solids

6

Ion Selective Electrode  
(ISE) - Fluoride

7

Amperometric Sensors  
(Free Chlorine, Ozone,  
Hydrogen Peroxide etc)

8

Accessories (Wiper,  
Spray Wash, Flow Cell)

## Added-value services :

A

Sensor calibration  
services with  
certificates

B

**ProMinent®**

## ProMinent › Made in Germany

[www.prominent.com](http://www.prominent.com)

**ProMinent** group of companies is based in Heidelberg and for over 55 years has been developing and manufacturing components and systems for metering liquids and solutions for water treatment and water disinfection.

## gamma/ X

### Solenoid Driven Metering Pump

- Greater process safety.
- Greater dosing quality.
- Best value for money!

### Key Features:

#### **Highest Process Safety**

Integrated pressure measurement and indication without any sensor in the dosing head.

#### **Advanced Connectivity**

Connection to process control systems via bus interfaces, such as Profinet and CAN bus.

#### **Maximum Reliability**

Trouble-free processes by the detection of hydraulic malfunctions or blocked discharge lines.

06

[www.vodaproasia.com](http://www.vodaproasia.com)

## Key Features:

- 1 Process safety thanks to dual diaphragm with diaphragm rupture warning system.
- 2 Reliable operation due to venting option.
- 3 Integrated relief valve protects against overloading.
- 4 Simplified management of spare parts when using the Sigma product range.
- 5 For volume-proportional, time-controlled, pulse-controlled and measurement-dependent metering.
- 6 2 standard materials PVDF/PTFE and Stainless Steel/PTFE.

### Sigma Basic Type

Robust pump for safe and reliable use.

### Sigma X Control Type

Reliable, smart and network-friendly.

## What chemicals Sigma X Family can handle?

- Chemical dosing up to over 1,000 L/h
- Disinfectants in potable water treatment
- Disinfectants in cooling circuits
- Flocculants in wastewater treatment
- Additives in the pulp and paper industry
- Additives in plastic manufacturing

**DULCOMETER®**  
D1Cb/D1Cc

**DULCOTEST®**  
Sensors

## Key Features:

- Universal Transmitter
- PID control function
- Multifunctional relay
- Simple installation to the same fittings and controllers
- Unaffected by interference due to turbidity or discolouration

## List of Parameters:

- PH
- ORP
- Conductivity
- Total / Combined / Free Chlorine
- Total / Combined / Free Bromine
- Chlorine Dioxide
- Dissolved Oxygen
- Hydrogen Peroxide
- Peracetic Acid
- Fluoride
- Chlorite
- Ozone

## SANDPIPER › Made in USA

[www.sandpiperpump.com](http://www.sandpiperpump.com)

Electricity bill? Energy management?

Why pay so much more for just slight ER improvement when you can afford for Sandpiper Pump, with at least 40% less air consumption.

Sandpiper Signature Series and Heavy Duty Flap Pumps are recommended for abrasive slurries, suspended and non-suspended solids and line-size solids requirements.

### SANDPIPER Signature Series

### Exclusive SANDPIPER Feature

#### **Bottom Discharge Porting**

Eliminate the damage from settling solids in your pump, with the exclusive bottom discharge capabilities of our Heavy Duty Ball Valve and Heavy Duty Flap Valve pump lines.

- ◆ Prevent broken diaphragm plates
- ◆ Ensure even diaphragm wear for longevity
- ◆ Eliminate diaphragm rod damage

### Specifications

<b>Suction / Discharge Port Sizes</b>	: 1" through 4"
<b>Maximum Flow Rate Per Minute</b>	: 310 Gal. (1173 L)
<b>Maximum Head</b>	: 88 m
<b>Maximum Suction Lift</b>	: 7 m
<b>Maximum Solids Handling</b>	: 3" (75mm)

## Eureka › Made in USA

[www.waterprobes.com](http://www.waterprobes.com)

**Eureka Water Probes** was formed in 2002 by industry veterans who believed there was considerable room in the multiprobe market for improvements in technology and customer service.

The brand continues to provide innovative and reliable multiprobes backed by market-leading customer service. Playing a part in helping to protect the world's water resources by designing and manufacturing the world's best multiprobes remains our sole focus.

### List of Parameters:

- |                               |                     |
|-------------------------------|---------------------|
| Temperature                   | Bromide             |
| pH / ORP                      | Chlorophyll         |
| Turbidity                     | Blue-Green Algae    |
| Transmissivity                | Rhodamine Dye       |
| Dissolved Oxygen              | CDOM / FDOM         |
| Conductivity / TDS / Salinity | Optical Brightener  |
| Depth / Barometric Pressure   | Tryptophan          |
| Total Dissolved Gas (TDG)     | Fluorescein Dye     |
| Ammonium / Ammonia            | PTSA                |
| Nitrate                       | Refined / Crude Oil |
| Chloride                      | Photometric PAR     |
| Sodium                        | Carbon Dioxide      |
| Calcium                       |                     |

## Manta+ Multiprobe

The **Manta+ Multiprobes** family offers up to 12 sensors in one, integrated package. Each Manta+ comes with embedded memory for internal logging, Manta Manager software and standard 3 years warranty. It has 6 series made up of Trimeter, Manta+ 20, Manta+ 25, Manta+ 30, Manta+ 35 and Manta+ 40 with different sensor configurations and sizes.

## LTH Electronics › Made in UK

www.lth.co.uk

**LTH** is established in Luton, England – 19th June 1967 moving to 50 years' experience on analytical process measurements. **LTH** delivers intelligent measurement solutions for process applications that require accurate and reliable control and measurement.

**LTH** is an ISO 9001:2015 registered company who offers a 3 years warranty on all their instruments.

### Product Categories :

- ◆ Contacting Conductivity
- ◆ Dissolved Oxygen
- ◆ Electrodeless Conductivity
- ◆ Flow Measurement
- ◆ Level Measurement
- ◆ pH & Redox (ORP)
- ◆ Pressure Measurement
- ◆ Suspended Solids & Turbidity
- ◆ Temperature Measurement
- ◆ Hydrogen Peroxide

### MXD70 Series

The **MXD70** series is IP66 microprocessor controlled, multiparameter instrument available in panel and surface mount options.

**Multichannel controller up to three sensors/ measurement inputs**

**Can be expanded up to 6 relay outputs and 6 x 4-20mA current outputs**

**Optional built in data logging and live trending**

**Auxiliary mA input card - Accepts 0/4-20mA industry standard signal**

**Optional Modbus RS485 communication**

### Key Features :

# 12

www.vodaproasia.com

## ECS40 Series

**ECS40** sensors are using electrodeless method of measuring conductivity with virtually zero maintenance and provide reliable measurements. It can measure chemical concentration NaOH, NaCl, HCl, H<sub>2</sub>SO<sub>4</sub> etc.

- ◆ PEEK FDA approved wetted materials
- ◆ Hygienic, inline, dip and tank mount
- ◆ Steam sterilisable to 135°C, thermal shock resistant for CIP applications
- ◆ IP67 connection simplifies installation and maintenance
- ◆ Permit use up to 100°C and 10 bars

## CMC Series

The **CMC** series conductivity cells consist of 3 graphite electrodes cast into an epoxy resin body which electrically isolates a precise volume of liquid. All the conductivity cells can be supplied with cell constant certification if required.

- ◆ High quality, robust industrial sensors
- ◆ Cell constants 0.01, 0.1, 1.0 & 10.0
- ◆ Cell constants accuracy ±2%
- ◆ Permit use up to 180°C and 34 bars
- ◆ Available with sensor material certificate 3.1

## Systea › Made in Italy

www.systea.it

**SYSTEAL** S.p.A. is an Italian company established in 1988 with the objective to develop, manufacture and sell automatic wet chemistry analyser for environmental and industrial markets, to be applied in the following liquid samples: surface water, drinking water, wastewater, sea water etc.

**SYSTEAL** quality system is certified  
ISO 9001:2015.

### Key Features :

#### **Robust And Reliable**

Highest level of robustness in the electronics, mechanics and hydraulics components.

#### **Easy To Install**

Ready for installation, without any further adjustment, with successful final tests before delivery.

#### **Automatic Calibration**

Selectable calibration interval for the analyzer to perform automatic calibration cycle.

#### **Low Reagent Consumption**

The usage of the reagent is minimized according to the measurement range.

#### **Self-cleaning Filtration Unit**

The filtration unit runs periodically a self-cleaning cycle, using compressed air to remove suspended solids.

### MICROMAC C

is a colorimetric microprocessor controlled online analyser specifically designed for automatic monitoring on several type of waters matrix.

### Available Parameters :

- |                       |                     |                       |
|-----------------------|---------------------|-----------------------|
| • Alkalinity          | • Copper            | • Nitrogen            |
| • Aluminium           | • Cyanide           | • Phenol              |
| • Ammonia             | • Ethylene Glycol   | • Phosphate           |
| • Arsenic             | • Hardness          | • Silicates           |
| • BOD & COD           | • Hydrazine         | • Sucrose             |
| • Boron               | • Iron              | • Sulphate & Sulphide |
| • Cadmium             | • Lead              | • TOC                 |
| • Calcium             | • Manganese         | • Urea                |
| • Chloride & Chlorine | • Monochloramine    | • Zinc                |
| • Chromium            | • Nickel            | • Up to 60 parameters |
| • Colour              | • Nitrate & Nitrile |                       |

## Sensorex › Made in USA

[www.sensorex.com](http://www.sensorex.com)

**Sensorex** is based in Garden Grove, United States, specializing in the design and manufacture of pH/ORP electrodes, conductivity/TDS sensors, free chlorine/chlorine dioxide sensors, dissolved oxygen and UV transmittance with over 40 years of experience.

### SD7000CD Universal Differential pH/ORP Probe

- With replaceable sensor reference
- Extend the working lifetime of sensors in challenging applications
- Compatible with any pH/ORP transmitter (HACH GLI P33, Aquamatrix & others)

### pH/ORP & Conductivity Controller

- Easy to install 1/8 DIN Case
- Two on/off controls (relay outputs)
- 4-20mA current output

## FLS › Made in Italy

[www.flsnet.it](http://www.flsnet.it)

The strong technical background developed in more than 20 years of applied process experience are leading **FLS** Line to be one of the most qualified solutions in flow measurement (paddlewheel, turbine & electromagnetic).

All **FLS** products are manufactured under ISO 9001:2015 and ISO 14001:2015 with most restrictive CE standards.

**Paddlewheel Flow Sensor**

- ★ C-PVC, PVDF or Stainless Steel sensor body
- ★ Two sensor lengths to cover from DN15 up to DN600
- ★ IP65 or IP68 protection class
- ★ High chemical resistance
- ★ Version for battery powered system

**Single/Dual Channel Flow Controller**

**Batch Flow Controller**

**Analogue Controller**

- ★ Wide full graphic display with multicolour backlight
- ★ Fast, intuitive and mistake-proof calibration software
- ★ Mechanical relay for external device control
- ★ Solid State Relays for programmable alarms

**Electromagnetic Flow Sensor**

**High Pressure Paddlewheel Flow Sensor**
